

Hello Scrappers!

Our winter season will be coming to an end on May 15 at Lake Miona Rec Center, from 9-11. We will enjoy a brunch and each other's company at this meeting, which means everyone coming should bring a dish to share. This will truly be a pot luck as no sign-ups occurred at the April meeting. I don't expect a lot of members to be present as many have already gone north for the summer.

As you all may know, Joni Hall and I are stepping down from our positions as President (me) and Program Coordinator (Joni). We will have a discussion on the future of the club at the brunch so try to come up with suggestions on how to keep the club going.

Some comments and suggestions follow:

- (1) Bring laptops, tablets, and smart phones and have workshops where the members will build layouts, ask questions, learn new software, etc.
- (2) Dues will no longer be collected, which means the website will go away because of the expense and no money coming in.
- (3) If the club folds, we will need to decide on how to distribute the balance of the money presently in the bank after any outstanding bills are paid.

(4) Joining the My Memories Workshop group that meets the third Wednesday of the month at Lake Miona in the pottery room from 9-11:30. This is the group that Linda Manson runs without having to join or pay dues. More and more members are using this software and having two meetings doesn't make a lot of sense to me. I will help Linda on occasion at this meeting. The MMS meetings run year round (no summer break).

(5) Depending on the future of the club, there may or may not be a summer challenge.

Looking forward to seeing you at the brunch and come with your thinking caps on! If you have any thoughts on the above or something you want to share with me privately, please call or send an email.

Wishing all the "member mothers" a happy day on May 13 wherever you may be.
